

# THRIVE

## IN OUR LEARNING COMMUNITY, WE:

1. Bring new players together.
2. Seek to reach the most “in need” among us.
3. Focus on learning from and with each other and share a belief that there is expertise among us all.
4. Focus on active learning that is experiential and engages participants in self-reflection and self-discovery.
5. Use new media to connect in creative ways.
6. Actively create new curricula based on sound principles of child and adult learning and development.
7. Focus on assessment, but tie assessment to child development.
8. Reframe teaching as teaching AND learning together.
9. Connect policy to practice.
10. “Play it forward.”
